Price of portable power distribution boxes for construction sites

Overview

Portable Power Distribution Box Shop our range of portable power distribution boxes for reliable electrical solutions. Ideal for outdoor events, temporary.

Key Takeaways

Portable power distribution boxes for construction sites typically range from $150 to over $1,000 depending on capacity, type, and features.

Price Ranges and Types

Basic Site Boxes: Standard site boxes with multiple outlets, circuit breakers, and differential switches generally cost $150–$400. These are suitable for small to medium construction sites and provide protection against overloads and short circuits (One-Elec). Spider Boxes: Rugged, portable spider boxes with multiple outlets and higher amperage (30A–60A) are priced around $400–$900, depending on the number of receptacles and whether they include locking or straight-blade configurations (Hubbell Wiring Device-Kellems).

Pre-

Wired Distribution Boards (e.g., ENERGYBOX): Heavy-duty, reusable boards made from fire-resistant technopolymer for larger sites or repeated use can cost $500–$1,200 or more, depending on amperage (32A–63A) and IP65 protection rating (Palazzoli).

Key Features Affecting Price

Amperage and Voltage: Higher amperage (50A–60A) and three-phase options increase cost. Number of Outlets: More outlets or specialized locking receptacles add to the price. Durability: Waterproof, dustproof, and fire-resistant enclosures are more expensive but essential for harsh construction environments.

Portability: Spider boxes and lightweight site boxes are easier to transport, which can influence cost. Safety Features: Circuit breakers, differential switches, and emergency stop buttons enhance safety and may increase price.

Where to Buy

Amazon: Offers a wide range of portable power distribution boxes for construction and emergency use, with prices starting around $150 for basic units.

Hubbell Wiring Device-

Kellems: Specializes in spider boxes and temporary power solutions for demanding environments.

One-

Elec: Stocks Schneider Kaedra site boxes with waterproof and dustproof enclosures, suitable for professional construction use.

Palazzoli ENERGYBO

X: Provides pre-wired, reusable distribution boards for larger or repeated construction projects. In summary, the price of portable power distribution boxes varies widely based on capacity, durability, and features, with small site boxes starting around $150 and high-capacity, heavy-duty boards exceeding $1,000. Choosing the right box depends on the size of the site, power requirements, and safety needs.
