What are some European manufacturers of wire mesh cable trays for data centers

Overview

Trayco cable trays, cable ladders and mesh trays | TraycoTrayco is specialised in producing and optimising 100% Belgian cable trays, mesh trays, cable ladd.

Key Takeaways

Key European manufacturers of wire mesh cable trays include VALDINOX (Italy), Trayco (Belgium), Spina Group (Italy), and Cablofil (France). Notable ManufacturersVALDINOX (Italy) VALDINOX specializes in wire mesh cable trays, supports, and accessories, offering high-quality solutions for cable routing in data centers and industrial environments. Their EASYCONNECT® system reduces installation time and costs while providing enhanced strength and safety.

VALDINO

X emphasizes custom-made solutions and large production capacity to meet demanding delivery schedules. Trayco (Belgium) Trayco produces 100% Belgian cable trays, mesh trays, and cable ladders. They provide tailored advice and project support, ensuring the correct materials and solutions for data center installations.

Trayco focuses on optimizing cable management systems and offers consulting services alongside their products. Spina Group (Italy) Spina Group offers a versatile range of wire mesh cable trays suitable for environments requiring cleanliness, ventilation, and fast installation. Their trays are available in galvanised, stainless steel, or electro-zinc finishes, with a full set of accessories including brackets, supports, and covers.

Spina Group emphasizes modular design and high mechanical resistance, making their products suitable for data centers and industrial applications. Cablofil (France) Cablofil is a well-known European brand specializing in wire mesh cable trays since 1972. They provide innovative cable management solutions and tools like CabloCAD for 3D modeling and project estimation.

Cablofil trays are widely used in data centers and industrial installations across Europe.

Additional Considerations

When selecting a manufacturer for data center applications, consider: Material and finish: Stainless steel or galvanised trays for corrosion resistance. Load capacity and modularity: Ensure trays can support high-density cabling and allow flexible routing. Installation support: Some manufacturers provide design tools, 3D modeling, and on-site consulting.

Customization: Ability to produce trays tailored to specific project requirements. These European manufacturers provide reliable, high-quality wire mesh cable trays suitable for modern data center infrastructure, ensuring efficient cable management, ventilation, and long-term durability.
