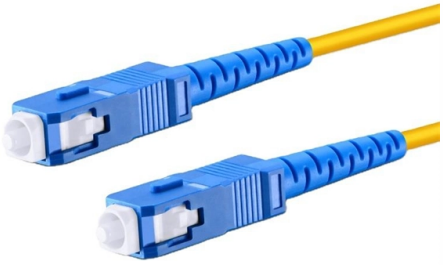
Which company makes the best open mesh cable trays



Overview

Top 10 Companies in the Wire Mesh Basket Trays Industry (2025): In this blog, we profile the Top 10 Companies in the Wire Mesh Basket Trays Industry —innov.

Key Takeaways

Cablofil, Legrand, and Chatsworth Products are widely recognized as top manufacturers of high-quality open mesh cable trays. Leading Manufacturers1. Cablofil Cablofil is one of the most well-known global brands for wire mesh cable trays, first introduced in Europe in 1972.

Their products are highly regarded for durability, flexibility, and ease of installation. Cablofil trays are suitable for a wide range of applications, including industrial, commercial, and data center environments. They also offer CabloCAD, a 3D modeling tool for precise project planning, and a web configurator for estimating project requirements efficiently.

2. Legrand Legrand North America specializes in electrical and digital building infrastructure and offers a comprehensive range of wire mesh cable trays. Their Cablolfil Wire Mesh Cable Tray system supports heavy loads, ensures optimal airflow to minimize heat buildup, and provides modular construction for scalable modifications.

Legrand's trays are widely used in hyperscale data centers, solar installations, and industrial power cable pathways. They also provide a variety of widths, including 30-inch and 36-inch trays, to accommodate large cable volumes. 3.

Chatsworth Products (CPI) Chatsworth Products is another top-ranked manufacturer, known for robust, high-quality wire mesh trays that are ideal for data centers and IT infrastructure. Their products emphasize efficient cable management, ventilation, and modularity, making them suitable for complex installations where airflow and accessibility are critical. Key Considerations When Choosing a ManufacturerLoad Capacity and Material: Ensure the tray can support the weight of your cables; steel and reinforced plastic are common materials.

Airflow and Ventilation: Open mesh design promotes cooling and prevents moisture accumulation. Modularity and Flexibility: Look for systems that allow easy bends, drops, and future expansion. Global Availability and Support: Companies like Legrand and Cablofil provide extensive distribution and technical support worldwide.

Project Tools: 3D modeling and configurators can simplify planning and installation.

Conclusion

For high-performance open mesh cable trays, Cablofil, Legrand, and Chatsworth Products are consistently rated among the best. They offer durable, flexible, and scalable solutions suitable for industrial, commercial, and data center applications, with strong global support and advanced planning tools. Choosing between them depends on your specific project requirements, such as load capacity, tray width, and installation environment.
