Key Takeaways

Shernann Electrical Panel Manufacturer Limited and Metal Fabricators of Zambia Plc (ZAMEFA) are key manufacturers of electrical distribution boxes in Zambia.

Shernann Electrical Panel Manufacturer Limited

Located in Lusaka, Shernann specializes in manufacturing electrical panels and distribution boards (DBs), along with feeder pillars, door frames, shelving units, and staff lockers. Their products are designed to handle diverse electrical loads, making them suitable for both commercial and residential applications. The company emphasizes quality and durability, ensuring that each distribution box meets rigorous safety and efficiency standards.

Shernann is strategically situated at Plot 396A Along Makeni Road, next to Total Filling Station, providing easy access for clients in Lusaka. Metal Fabricators of Zambia Plc (ZAMEFA)ZAMEFA manufactures a comprehensive range of low voltage electrical energy cables and insulated wires, and as part of the Reunert and CBI group, they offer integrated solutions for electrical distribution. While primarily known for cables and copper products, ZAMEFA also provides components that complement electrical distribution systems, making them a reliable partner for industrial and commercial electrical projects.

Additional Suppliers

While not manufacturers, companies like Fervent Zambia Limited supply a broad range of electrical equipment, including high voltage cables, conductors, and transformers, which can complement distribution box installations. Lightcon Zambia and other electrical wholesalers provide sourcing options for components and accessories required for electrical distribution systems.

Summary

For local manufacturing of electrical distribution boxes in Zambia, Shernann Electrical Panel Manufacturer Limited is the primary choice for custom panels and distribution boards, while ZAMEFA offers complementary electrical components and cables. These companies provide durable, high-quality solutions suitable for residential, commercial, and industrial applications, ensuring safety and operational efficiency.
