Asian Fiberglass Cable Tray Manufacturer

Overview

Fiberglass Cable Tray Looking for durable and corrosion-resistant Fiberglass Cable Tray?

Our lightweight, high-strength trays offer long-lasting performanc.

Key Takeaways

Leading Asian fiberglass cable tray brands include ORITRAY (Indonesia), GangLong Fiberglass (China), and Tianhong Cable Tray (China), known for high-quality, corrosion-resistant, and fire-retardant systems. Key Asian Manufacturers1.

ORITRA

Y (Indonesia) ORITRAY is produced by PT Ori Polytec Composites, the first manufacturer and market leader in fiberglass-reinforced plastics in Indonesia. Their cable tray systems are designed for chemical, electrical, and corrosion-prone environments.

ORITRA

Y offers both ladder-type and channel-type fiberglass trays, providing excellent chemical resistance, load capacity, fire retardance, and UV protection. The brand emphasizes high-quality raw materials and stringent fabrication standards, making it widely accepted in industrial and commercial applications. 2.

Gang

Long Fiberglass (China) GangLong Fiberglass manufactures a range of cable management solutions, including FRP (fiberglass-reinforced plastic) cable trays, alongside stainless steel and aluminum options. Their products are used in offices, hospitals, factories, data centers, and warehouses.

Gang

Long focuses on durable, cost-effective, and safe cable support systems, ensuring long-term performance and protection against environmental hazards. 3. Tianhong Cable Tray (China) Shandong Tianhong Electric Power Technology Co., Ltd. specializes in fiberglass cable trays and other cable management systems.

Founded in 2006, Tianhong provides OEM and ODM services, offering customized solutions for industrial, commercial, and infrastructure projects. Their trays are lightweight, easy to install, corrosion-resistant, and suitable for indoor and outdoor applications. Tianhong is recognized for quality assurance, advanced manufacturing processes, and global supply capabilities.

Additional Notes

Asian manufacturers often comply with ISO and UL standards, ensuring international quality and safety compliance. Fiberglass cable trays are preferred in harsh environments due to their non-conductive nature, corrosion resistance, and fire retardancy, making them suitable for chemical plants, offshore platforms, and tropical climates. Other notable Asian suppliers include Shanghai Sintray Industries and Wuxi City Qiaobang Storage Equipment in China, which provide customizable, high-strength fiberglass trays for complex installations.

These brands represent the leading options for durable, high-performance fiberglass cable trays in Asia, suitable for industrial, commercial, and infrastructure projects.
