Can electrical cable trays be mounted on the wall

Overview

Can I use the same mounting options for wire mesh baskets and cable trays?

Yes, many of the mounting options, such as wall brackets and ceiling suspensions, can be used for both wire mesh baskets and cable trays. Unlike a simple wire trough, which is typically a covered channel for shorter runs, cable trays provide a comprehensive support system for complex wiring paths over long. Cable trays are essential for safely organizing cables along walls or ceilings, especially in industrial or commercial spaces. They utilize existing wall space in a building and are commonly applied in data centers and industrial environments. Supports RVK are placed inside of cable trays that allows a good-looking installation at places were the design is. Wall support K is attached to joint RSS using the screw set included with the wall support.
