Complete Price List for Overhead Optical Cables

Overview

Discover the perfect Electric Wire & Cable addition with our Overhead Cable Price.Prices of electric wire and cable are influenced by copper prices, length, and customization.

Key Takeaways

Overhead fiber optic cable prices vary widely, typically ranging from $0. 10 to $6 per foot depending on type, fiber count, and environmental protection. Price Ranges by Cable TypeSingle-Mode Fiber (OS1/OS2): Designed for long-distance communication, prices generally range from $0.

10 to $2. 80 per foot, depending on fiber count and manufacturer quality.

Multi-

Mode Fiber (OM3/OM4): Suitable for shorter distances, these cables cost approximately $0. 30 to $6 per foot, with higher prices for higher strand counts or premium materials. Armored Fiber Optic Cables: Reinforced for high-risk areas, prices range from $0.

50 to $6. 50 per foot, offering protection against physical damage and environmental hazards. Outdoor/UV-Resistant Cables: Built to withstand harsh weather, UV exposure, and water, these cables typically cost $0.

50 to $5 per foot, depending on construction and fiber count.

Factors Affecting Pricing

Fiber Count: Higher strand counts increase cost proportionally. For example, a 12-strand cable may cost around $0. 50 per foot, while a 24-strand cable can reach $1 per foot.

Material Quality: Premium glass fibers provide lower attenuation and higher performance but are more expensive than standard glass or plastic fibers. Installation Costs: Labor, logistics, and mounting hardware for overhead deployment can significantly affect total project cost. Urban areas may incur higher labor rates, while rural areas may have additional delivery costs.

Connector and Termination Type: Pre-terminated assemblies or patch cables with factory-installed connectors increase the per-foot cost. Environmental Protection: Armored or outdoor-rated cables designed for UV, water, or rodent resistance are priced higher than standard indoor cables.

Example Project Costs

Basic Overhead Run: 1,000 ft single-mode cable with minimal terminations: $0. 40–$1. 00 per foot, total ≈ $2,500–$3,100 including labor and accessories.

Mid-

Range Outdoor Run: 2,000 ft outdoor cable with conduit and multiple terminations: $0. 70–$1. 60 per foot, total ≈ $4,900–$6,100.

Premium Armored Installation: 5,000 ft armored outdoor cable with multiple splices and professional testing: $1–$3 per foot, total ≈ $11,000–$14,500.

Where to Purchase

Overhead fiber optic cables can be sourced from distributors like Alibaba, Octopart, or local suppliers, which provide datasheets, pricing comparisons, and bulk order options. Wholesale purchases often reduce per-foot costs, especially for large projects. By considering cable type, fiber count, environmental protection, and installation complexity, buyers can estimate overhead fiber optic cable costs accurately for both small and large-scale deployments.

Overhead Cable Price, 2026 Overhead Cable Price Manufacturers ...

Discover the perfect Electric Wire & Cable addition with our Overhead Cable Price.Prices of electric wire and cable are influenced by copper prices, length, and customization.

Overhead Cable Price

Below is a detailed breakdown of the most commonly used overhead cable types, including their price ranges, key features, and ideal use cases to help you make informed decisions

OPGW Cable Price

Discover OPGW price deals on 12-288 core fiber optic cables for 110KV-500KV power lines. CE/ISO certified, single mode G652D, aluminum-steel construction.

Latest OPGW Cable Price List

As demand for OPGW cables increases, understanding their pricing becomes crucial for utilities and telecommunications companies. This article delves into the factors influencing OPGW

LIST PRICE

Note : • The above rates are exclusive of GST & any other statutory levies which shall be charged extra. • This List Price supersedes all our earlier price list. This List Price is subject to change without prior

Factory Price Overhead Optical Cable Oppc/Opgw/ADSS

Our mission is to offer our customers the best quality cable and wire products at the most competitive price, to extend and zoom the business success of our partners, to make power reach where it is

Optical Fiber Composite Overhead Ground Wire (OPGW)

Two or three stainless steel optical tubes are helically stranded in the inner layer of a multiple-layer cable. The multi loose tube type is designed mostly for very high fiber count requirement over 48 with

Wire & Cable Prices

CRU provides comprehensive, accurate and up-to-date price assessments and research reports for bare optical fibre across various key regional markets, combined with insights into the
