Core Switch 3750

Overview

With the 3750 switch, you can optimize network performance, prioritize critical applications, and secure your data with built-in security features. The Cisco ® Catalyst ® 3750 Series Switches (Figures 1 through 4) are innovative switches that improve LAN operating efficiency by combining industry-leading ease of use and high resiliency for stackable switches. This product series features Cisco StackWise ™ technology, a 32-Gbps stack. We are running Cisco Catalyst 3750 switches configured in a stack, with IOS version 15. The following message appears in the logs: 000399: Jan 7 15:00:47. The stack behaves as a single switching unit that is managed by a master switch elected from one of the member. In addition, the Cisco Catalyst 3750 Series is optimized for high-density Gigabit Ethernet deployments and includes a diverse range of Cisco Systems, Inc. Page 2 Scalability—Fast Ethernet to Gigabit Ethernet The Cisco Catalyst 3750 Series stacks up to 9 switches as a single logical unit for a total. The Cisco® Catalyst® 3750E-48TD Switch with StackWise Plus (Figure 1) is an enterprise-class stackable wiring closet switch that facilitates the deployment of secure converged applications while maximizing investment protection for evolving network and application requirements. Combining. Catalyst 3750 48 10/100/1000T + 4 SFP + IPS Image. Cisco StackWise 50CM Stacking Cable.
