Distribution Box pxpm

Overview

PXPM allows users to connect to trip units via USB, configure setpoints offline or online, export settings to units, and perform tests. PXPM is free to download with premium upgrades available. View historical event summaries and real time data, generate reports, and control your breaker without complicated wiring. Eaton's Power Xpert Protection Manager (PXPM) provides a clean, intuitive user interface, enabling unmatched control, testing and troubleshooting. Settings and tests are communicated to trip units via USB or through connected networks, no. The Power Xpert Protection Management Software is used with the PXR trip units in the Power Defense insulated case circuit breakers and Power Defense molded case circuit breaker; you will need to use a micro-USB data cable to connect from a laptop to the trip unit. The user-friendly LCD display is ideal for buildilng. Eaton PXPM secure configuration is a Microsoft Windows-based software that configures, controls and tests Eaton PXR trip units. It is designed to be deployed and operated in a physically secure location.
