Does Huijue Optoelectronics deal with optical modules

Overview

You can also use the Hardware Center to query the components including optical modules supported by different switch models and the detailed specifications by part number, product model, and module type.

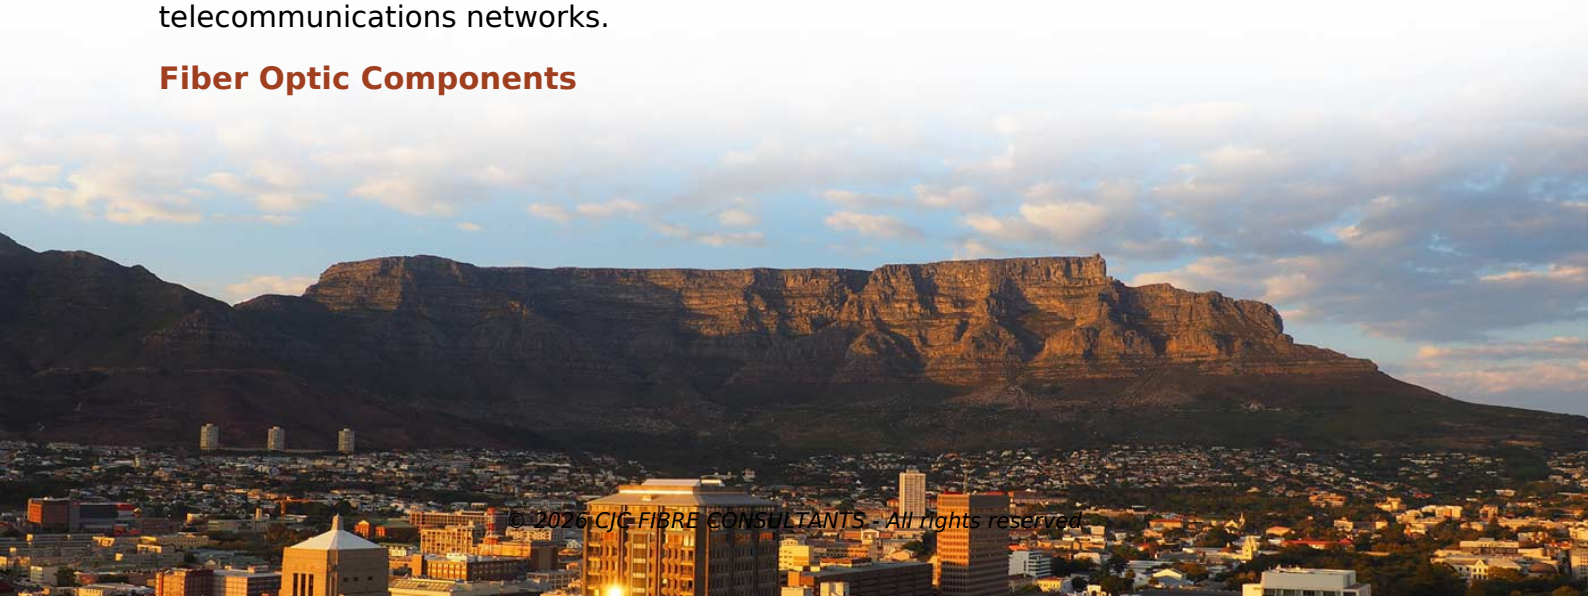

Key Takeaways

Huijue Optoelectronics primarily manufactures fiber optic components and optical fiber energy storage solutions, but it does not appear to produce standard optical communication modules.

Company Focus

Huijue Group, founded in 2002, is a high-tech manufacturer based in China, specializing in photovoltaic modules, energy storage systems, and optical fiber energy storage technologies. Their optical fiber energy storage uses doped fibers to trap photons and store energy efficiently, which is applied in projects like solar highway lighting and microgrid balancing. This technology is distinct from conventional optical communication modules used in data centers or telecommunications networks.

Fiber Optic Components

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

Huijue does manufacture fiber optic components, including active connectors, optical splitters, adapters, and fiber optic cables. They provide customized solutions for FTTX networks, data centers, and integrated site power solutions, and offer OEM/ODM services. These components support optical communication infrastructure but are not the same as fully integrated optical modules like transceivers or optical communication devices listed among top optical module manufacturers.

Distinction from Optical Module ManufacturersStandard optical modules, such as those produced by companies like Zhongji Innolight, Eoptolink, or Accelink Technologies, are high-speed transceivers and integrated optical devices used in ICT networks, telecommunications, and data centers. Huijue's offerings focus on energy storage and fiber optic components, not on high-speed optical transceivers or modules for network communication.

Conclusion

While Huijue Optoelectronics is active in the fiber optics and energy storage sector, it does not manufacture conventional optical communication modules. Their products are more aligned with fiber optic components and optical fiber energy storage solutions, which can support communication infrastructure but are not the same as optical transceivers or integrated optical modules used in ICT applications.

How to make Huijue compatible with other optical modules

You can also use the Hardware Center to query the components including optical modules supported by different switch models and the detailed specifications by part number, product model, and module type.

Huijue Optical Module Code

The Huijue Group"s Optical-storage-charging application scenario is a typical application of microgrid energy storage. The core consists of three parts - photovoltaic power generation, energy storage ...

Huijue Optical Module Original

Sailing Poland Optoelectronic Systems (SPO) supplies fiber optic infrastructure: optical transceivers, PLC splitters, ODF racks, patch cords, FTTH cabling, optical switches, and 5G fronthaul solutions for

What are the OEM manufacturers for Huijue optical modules

Our main products are the optical modules, including both original brand modules, such as Finisar/Huawei/ Juniper/ Alcatel/ Brocade/ EMC/ Cisco/ Avago, etc, and OEM modules from SFP,

Huijue Optical Module Single Fiber

In optical modules, “core” refers to the light-transmitting channel in the fiber. A 1-core module uses a single fiber core for data transmission, while a 2-core module uses two cores.
