

Fiber Optic Corrugated Pipe Manufacturer

Overview

Manufactured from HDPE with a corrugated exterior for strength and flexibility. Multi-color options for project differentiation and easy identification.

Key Takeaways

Leading manufacturers of fiber optic corrugated pipe equipment include Qingdao Daaote, Qingdao Comrise Machinery, Drossbach, Rosendahl Nextrom, and ZhongyunTech, offering complete extrusion lines and multi-channel COD pipe solutions. Key Manufacturers and Their Offerings1. Qingdao Daaote Plastic Extrusion Machine Co., Ltd.

Specializes in 90mm, 75mm, and 110mm flexible HDPE COD corrugated optic/fiber ducts. Their machines produce multi-channel fiber optic protection tubes with built-in inner ducts, allowing for quick installation and reduced trench work. The equipment emphasizes high flexibility, low friction, and long service life, suitable for telecom backbone applications.

2. Qingdao Comrise Machinery Co., Ltd.

Offers CO

D corrugated multi-channel bundle pipe equipment, HDPE silicon core pipe machinery, and other fiber optic pipe production lines. Their machines support pre-sales consultation, technical guidance, and after-sales services including installation, commissioning, and maintenance. They focus on high-speed production and smooth inner and outer walls for easy construction.

3. Drossbach A German manufacturer with over 55 years of experience, Drossbach provides single-layer to four-layer corrugated pipe machines for various applications, including cable protection. Their equipment features interchangeable tools, high-speed extrusion, remote monitoring, and easy maintenance, with global after-sales support.

4. Rosendahl Nextrom Specializes in fiber optic cable production technologies, including fiber drawing, coating, ribbon making, and loose tube production. Their solutions integrate high-resolution monitoring systems to ensure precise fiber length and quality control during production, suitable for telecom and high-density fiber applications.

5.

Zhongyun

Tech Founded in 1963, ZhongyunTech provides complete corrugated pipe extrusion lines and individual equipment for OD40mm to OD2600mm pipes. Their machines feature water-cooled mould blocks, high-precision machining, and fast mould changeover, supporting both small cable conduits and large sewage pipes. They also supply die heads and mould blocks compatible with European and North American machines.

Considerations for Choosing Equipment

Pipe Type and Size: Ensure the manufacturer supports the required OD and number of inner ducts. Production Speed and Automation: High-speed extrusion and integrated monitoring systems improve efficiency. Material Compatibility: Most machines handle HDPE, PE, or PVC; some support silicon core or porous pipes.

After-

Sales Support: Installation, commissioning, and maintenance services are critical for smooth operation. Customization: Some manufacturers offer tailored solutions for multi-channel COD pipes or specialized fiber optic applications. These manufacturers provide a range of fiber optic corrugated pipe equipment suitable for telecom, power, and infrastructure projects, with options for both complete production lines and individual machinery components.

Telecommunication Pipes

Manufactured from HDPE with a corrugated exterior for strength and flexibility. Multi-color options for project differentiation and easy identification. Provides robust

Electro Plastics | Premium HDPE Corrugated Pipes

Electro Plastics is a cutting-edge company established in 2025, specializing in the production of flexible corrugated pipes of types F16, F20, F25, and F32, manufactured according to strict European quality

Corrugated

Explore our library of Corrugated resources, including product data sheets, certifications, and application-specific documentation to help you plan, design, and deliver with confidence.

Fiber Optic Ducts Pipe

PalaDuct prime are pipes made of HDPE, with internal grooves for low friction, suitable for air – blown fiber optic cables. They are waterproof and suitable for

Fiber optic protective pipes

We offer a wide range of sizes and color-coded pipes for easy identification on-site. Choose our products for the assurance that your fiber optic network will be protected for years to come.

TAHWELYA | Converting Industries Company

High Density Polyethylene (HDPE) corrugated Pipes for communication and fiber optic applications with Orange color or any other color. Available with various wall thicknesses as required by specific project.

Top 10 Companies in the Plastic Corrugated Tube Industry (2025):

In this blog, we profile the Top 10 Companies in the Plastic Corrugated Tube Industry—a blend of established European giants, global specialists, and innovative producers advancing the

Creating what connects us | Dura-Line

Dura-Line manufactures standard High Density Polyethylene (HDPE) conduits for standard installation applications such as standard underground, as innerducts in existing conduits, or corrugated

HDPE Standard | Dura-Line

Our popular HDPE duct with a smooth outer wall and internal longitudinal ribs for a reduced coefficient of friction. Corrugated conduit is made from HDPE and works

Polyethylene Corrugated Duct Solutions | PDF | Pipe

This document provides information on Polyethylene Corrugated Ducts (COD) produced by NEPROPLAST for fiber optic and electrical cabling installations.

installation-of-swedish-fiber-optic-cable-connector-protection-box
