Grenada Optical Splitter Manufacturers

Overview

grenada-optical-splitter-manufacturer | B2B companies and suppliers. Lightmax SL is a company founded in 2007, specialized in the manufacturing and suppl.

Key Takeaways

Grenada has suppliers and exporters of optical products, but local optical splitter manufacturing is limited; global manufacturers like GrenTech, PPC Broadband, and T&S Communications provide high-quality splitters suitable for Grenada's market.

Local Suppliers in Grenada

While Grenada does not have a large-scale optical splitter manufacturing industry, there are verified suppliers and exporters of optical products that can provide splitters and related fiber optic components. These companies are listed in directories such as GlobalsuppliersOnline, which includes Grenada-based businesses offering optical products for telecommunications and networking applications. Additionally, TCS Grenada provides optical splitters and cabling solutions suitable for local installations.

Global Optical Splitter Manufacturers

For high-quality optical splitters, Grenada-based businesses often source from international manufacturers: GrenTech: Offers a comprehensive range of 1xN and 2xN optical splitters with low insertion loss and compact design, suitable for FTTX and PON networks.

PP

C Broadband: Provides indoor and outdoor optical splitters designed for telecommunications networks, ensuring reliable connectivity.

T&

S Communications: Specializes in PLC splitters and FBT couplers, enhancing network performance for fiber optic applications.

Opti

Works and HYC Co., Ltd: Produce high-quality PLC splitters and passive optical devices for 4G/5G networks and data centers. Browave Corporation: Offers advanced optical splitters using fused biconical taper technology for low-loss, high-performance applications.

Considerations for Procurement

When sourcing optical splitters for Grenada: Check compatibility with local network standards and fiber types (single-mode or multi-mode). Verify quality certifications such as G. 657.

A1 for single-mode fibers. Consider shipping and support from international manufacturers if local production is unavailable. Customizable options are available from companies like Fibre2EU and GrenTech for specific splitter ratios and configurations.

By combining local suppliers for immediate availability and global manufacturers for high-performance optical splitters, businesses in Grenada can effectively deploy fiber optic networks and telecommunications infrastructure.
