How much does a bundle of mesh cable trays cost

Overview

Kable Kontrol''s wire mesh cable tray suspends cables and ensure that your important wires and cables are safely organized and out of your way.

Key Takeaways

Mesh cable trays typically range from $1 to $50 per meter, depending on material, size, and finish, with installation and accessories affecting total costs.

Price Ranges

Retail and Online Stores: Standard wire mesh trays in steel or aluminum can cost $26–$245 for pre-packaged sections (e.g., 5 ft. to 10 ft. lengths) depending on brand and size. Wholesale and Bulk Orders: Prices can drop significantly, with $1–$10 per meter for galvanized or stainless steel trays when purchased in larger quantities. Accessories: Couplers, brackets, bends, and covers add to the cost.

For example, a 50-pack of steel couplers can cost around $27–$32.

Factors Affecting Cost

Material: Pre-galvanized steel is the most affordable. Hot-dip galvanized steel is more expensive due to thicker corrosion protection. Aluminum is lightweight but pricier than steel.

Stainless steel is the highest cost, used in corrosive or hygienic environments. Tray Size and Load Capacity: Wider or deeper trays designed for heavier cables cost more. Finish and Coating: Powder-coated, electro-galvanized, or stainless finishes influence price.

Installation and Labor: Wire mesh trays are generally cheaper to install than conduit or ladder trays because they are lightweight and easy to handle, reducing labor costs. Regional Factors: Shipping, labor rates, and local metal prices can affect the final cost.

Summary

For a typical office, data center, or industrial installation, expect to pay $1–$50 per meter for mesh cable trays, with additional costs for supports, fittings, and covers. Bulk purchases and standard sizes reduce unit costs, while specialized materials or custom configurations increase the price. Wire mesh trays are generally the most cost-effective option for light to medium cable loads, offering good ventilation and easy installation.
