

How much does a galvanized cable tray cost in Taiwan

Overview

Cable tray pricing depends on materials, coatings, size, supplier margins, and order quantity —plus hidden costs like shipping and installation.

Key Takeaways

Genuine galvanized cable trays in Taiwan typically range from NT\$300 to NT\$1,200 per meter, depending on type, size, and quality.

Overview

Galvanized cable trays are made from steel sheets coated with zinc through a hot-dip galvanization process, providing corrosion resistance and long-term durability for industrial and commercial wiring applications. They are available in various types, including ladder, perforated, and solid-bottom trays, and in multiple widths and thicknesses, which significantly affect pricing.

Price Factors

Material Quality: High-grade steel with thicker zinc coating costs more due to better corrosion protection and longevity. **Tray Type:** Ladder trays are generally more expensive than perforated or solid trays because of higher material usage and structural strength. **Dimensions:** Wider and deeper trays require more steel, increasing the price per meter.

Supplier and Brand: Established manufacturers like Brilltech Engineers and RS Taiwan may charge a premium for certified, high-quality trays and offer customization options. **Quantity and Bulk Orders:** Large orders often receive discounts, while small quantities may be priced higher per unit.

Typical Price Range

Perforated or solid trays: NT\$300–NT\$600 per meter
Ladder-type trays: NT\$700–NT\$1,200 per meter
Customized or heavy-duty trays: Prices can exceed NT\$1,500 per meter depending on specifications
Purchasing Tips Request quotes from multiple suppliers to compare prices and quality. Verify hot-dip galvanization certification to ensure genuine corrosion protection. Consider shipping and installation costs, which may add to the total project budget.

Check for local distributors like RS Taiwan for immediate availability and standard sizes. By considering these factors, you can select a cost-effective and durable galvanized cable tray suitable for your project in Taiwan.
