Huawei T51 Optical Module

Overview

The Huawei TNF3C1CFPT51 is an original high-performance 100G CFP (C Form-factor Pluggable) optical transceiver module designed specifically for Huawei DWDM (Dense Wavelength Division Multiplexing) networks. This 03032VMY is 100% genuine Huawei product. It won't have any compatibility problem with your Huawei devices. Engineered for reliable and long-distance optical transmission, this transceiver supports. In the AI era, Huawei provides a full range of GE to 800GE optical modules, featuring three major capabilities: Spanning (ultra-long transmission), Stable (ultra-high reliability), and Secure (ultra-solid security). Together, they ensure resilient data center interconnectivity and empower. Huawei original 100G T51 CFP optical transceiver, LC connector, bulk packed, apply for huawei DWDM network, no alarm TX/RX power test ensures that the optical power are within the thresholds; remove the aged optical module with power loss, and the fake module with counterfeit label. Hongking Communication Technology Shenzhen Co. Enjoy reliable performance, one-year warranty, and efficient FTTH solutions. Shop now for quality!| Alibaba.
