Moroccan Fiber Optic Endface Electric Cleaning Pen IK10

Overview

Upgrade your fiber optic maintenance toolkit with high-capacity cleaning pens. Efficiently remove contaminants from connector end faces and ferrules.

Key Takeaways

The IK10 electric fiber optic cleaning pen efficiently removes stubborn contaminants from fiber endfaces, supports multiple connector types, and offers fast, durable, and convenient operation. Key FeaturesHigh-Speed Cleaning: The pen uses a high rotation speed to remove anhydrous stains and debris from fiber endfaces, achieving results similar to polishing, making it ideal for connectors that have not been cleaned for extended periods. Replaceable Cleaning Rods: The pen comes with replaceable cleaning rods with long service lives: 1.

0mm rods for 30 cleanings, 1. 25mm rods for 50 cleanings, and 2. 5mm rods for 100 cleanings.

Rods can be configured according to specific needs. Connector Compatibility: Supports a wide range of connectors, including LC, MU (1. 25mm), FC, SC, ST (2.

5mm), and some 1. 0mm interfaces, making it versatile for field applications. Environmental Resistance: Designed for on-site optical network maintenance, the pen operates reliably in temperatures from -10℃ to 40℃ and can be stored between -20℃ and 40℃.

Applications

Field Maintenance: Ideal for cleaning and maintaining optical links in FTTN, FTTC, and FTTB deployments, ensuring high-speed, low-latency connections for residential, commercial, and campus networks. Professional Optical Networks: Suitable for cleaning patch cords, fiber endfaces inside ports, and optical modules, improving signal quality and reducing insertion loss. Versatile Use: Can be used in both high-speed (800G) and low-speed optical modules, as well as in engineering sites and production environments.

Advantages

Fast and Efficient: Single-click or high-speed rotation allows quick cleaning without the need for additional fluids in many cases.

Durable and Cost-

Effective: Long-lasting cleaning rods reduce replacement frequency and operational costs. Portable and Easy to Use: Lightweight design and simple operation make it suitable for field technicians and on-site maintenance. The IK10 electric cleaning pen is a reliable tool for maintaining fiber optic networks, ensuring clean endfaces, stable signal transmission, and minimal downtime in both professional and field environments.
