# P3u20 relay protection supply

## Overview

The Schneider Electric PowerLogic P3U20 is a universal protection relay designed for comprehensive protection and control of feeders and motors. It covers product introduction, installation procedures, configuration using Easergy Pro software, measurement and protection This document provides instructions for the PowerLogic P3 Universal Relays P3U20. Schneider Electric aims to achieve Net Zero status by 2050 through supply chain partnerships, lower impact materials, and circularity via our ongoing “Use Better, Use Longer, Use Again” campaign to extend product lifetimes and recyclability. The Easergy P3 has been renamed to PowerLogic P3. It is essential to emphasize that this renaming exclusively affects the brand name of the products and will have absolutely no consequence on the current performance, specifications. The Schneider Easergy P3U20 Protection Relay offers intelligent, multifunctional protection that handles multiple fault scenarios automatically. But here's the thing: simply installing this relay isn't enough. You need comprehensive knowledge about configuration, commissioning, and optimization.
