

Price of Galvanized Molded Cable Trays in Central Asia

Overview

Discover cable trays with CE certification, available in stainless steel, aluminum, and galvanized materials. Ideal for industrial cable laying.

Key Takeaways

Custom-made galvanized cable trays in Central Asia typically range from \$20 to \$150 per meter depending on material, size, perforation, and customization options.

Pricing Factors

The cost of galvanized cable trays depends on several key factors: **Material and Coating:** Hot-dip galvanized steel is the most common, offering corrosion resistance and durability. Stainless steel or aluminum variants are more expensive due to higher material costs. **Tray Type and Design:** Options include perforated trays, wire mesh trays, cable ladders, and trough trays.

Perforated trays allow ventilation and drainage, while wire mesh trays are lightweight and flexible. **Dimensions and Load Capacity:** Widths range from 50 mm to 900 mm, lengths from 2 m to 3 m, and side rail heights from 12 mm to 200 mm. Larger or higher-load trays cost more.

Customization: OEM or custom designs tailored to specific project requirements, including special perforation patterns, bends, or fittings, can increase the price. **Volume and Supplier:** Bulk orders often receive discounts. Factory-direct suppliers in China and Asia provide competitive pricing, while local distributors may add shipping or handling fees.

Supplier Options in Central Asia

Several Asian manufacturers supply custom galvanized cable trays suitable for Central Asian projects: Shandong Jinheng Electric Co., Ltd (JLH Electric): Offers hot-dip galvanized, powder-coated, stainless steel, and PVC trays with fast custom quotes and delivery within three months. Shandong Hongfeng Import and Export Co., Ltd: Specializes in perforated, wire mesh, and large-span trays with ISO 9001 and CE certifications, customizable for industrial and communication projects.

HDMAN

N via Alibaba: Provides perforated trays in multiple heights and widths, with accessories and fittings, accepting custom orders with negotiable shipping.

Estimated Price Range

Standard perforated galvanized steel tray: \$20-\$50 per meter Heavy-duty or large-span trays: \$80-\$150 per meter Custom configurations with special coatings or fittings: Prices vary and require supplier quotation.

Recommendations

Request quotes from multiple suppliers to compare pricing and lead times. Confirm material certifications (ISO, CE, SGS) for quality assurance. Consider shipping and import duties for Central Asia, as these can significantly affect total cost.

Evaluate installation requirements; some trays are designed for quick assembly, reducing labor costs. By considering these factors, you can select a cost-effective, durable, and customized galvanized cable tray solution for your project in Central Asia.
