Price of a connector for a few meters of fiber optic cable

Overview

Shop DigiKey''s large in-stock selection of Fiber Optic Connectors. View inventory, pricing and order now for same day shipping!

Key Takeaways

The cost of a fiber optic cable connector per meter typically ranges from $0. 05 to $1. 50, depending on cable type, fiber count, and construction.

Price Ranges by Cable TypeSimplex/Duplex Indoor Cable: $0. 05 – $0. 30 per meter Single-mode Outdoor Cable: $0.

10 – $0. 50 per meter Multimode (OM1/OM2/OM3/OM4): $0. 10 – $0.

60 per meter Armored Cable (Steel Tape/FRP): $0. 30 – $1. 00 per meter Aerial/Self-Supporting Cable: $0.

40 – $1. 50 per meter Factors Affecting CostFiber Count: Higher strand counts (e.g., 24-core, 96-core) increase the price proportionally. A 2-core cable is much cheaper than a 24-core cable.

Cable Construction: Armored cables or those designed for harsh environments cost more due to added protection. Indoor riser-rated cables are cheaper than plenum-rated or outdoor cables.

Connector Type and Pre-

Termination: Pre-terminated connectors or patch cables increase costs because of factory termination and labor savings on-site. Material and Jacket: LSZH jackets, UV-resistant jackets, or direct-burial rated cables are more expensive than standard PVC indoor cables. Practical NotesSingle-mode fiber is generally cheaper per meter than multimode fiber but may require more expensive equipment for installation.

Armored cables provide protection against physical damage, which can increase the cost to $1. 15 – $6. 50 per meter for premium configurations.

Bulk purchases or wholesale orders can reduce the per-meter cost compared to retail prices. In summary, for standard indoor or outdoor fiber optic cables with connectors, expect to pay between $0. 05 and $1.

50 per meter, with higher-end armored or high-strand-count cables costing more. The final price depends on the specific cable type, fiber count, and environmental requirements.
