Price of base plate for electrical distribution box installation accessories

Overview

Easy to secure and organize the internal components of the junction box, such as terminals, switches, or receptacles ensuring they are properly installed and maintained within the box.

Key Takeaways

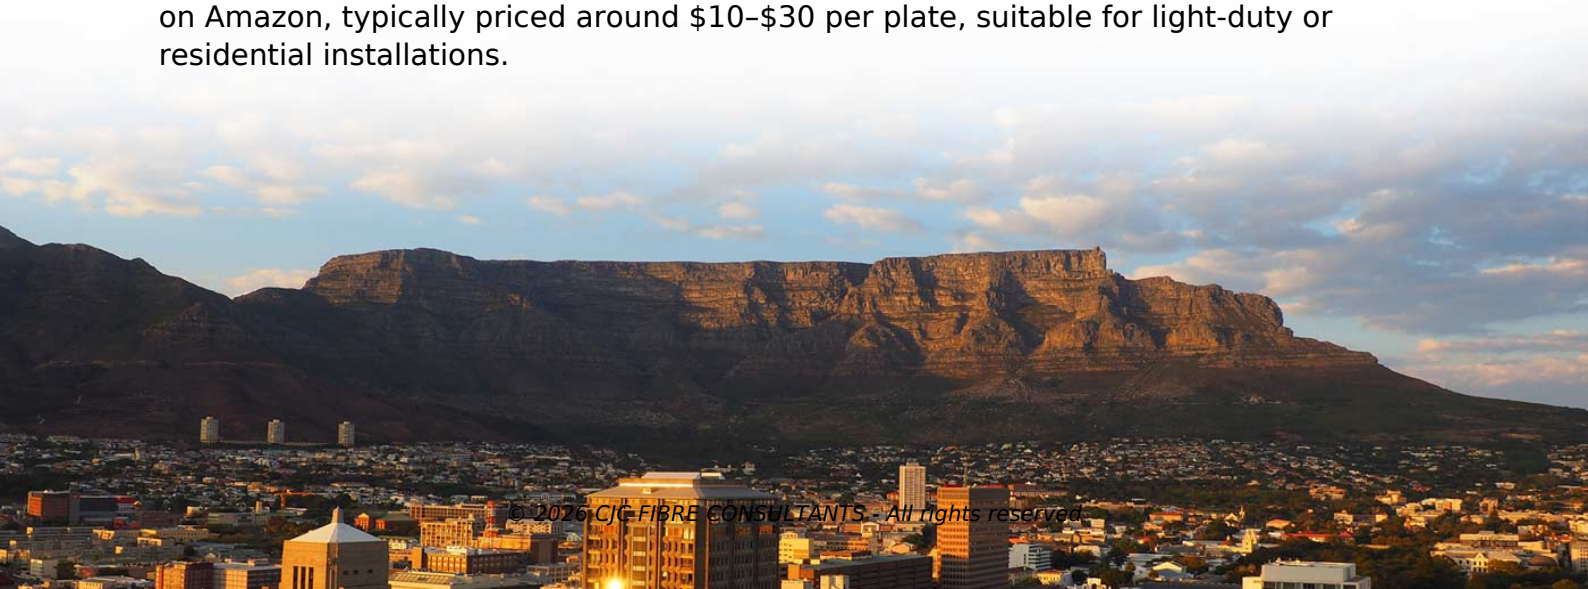

Base plates for electrical distribution boxes typically range from $10 to $150 per unit, depending on material, size, and supplier. Types and Pricing1.

Metal Base Plates

Example: ABB 1SL0263A00 blank metal base plate (Size 5) is used for mounting electrical components securely inside distribution boxes. Pricing is generally quoted per unit and may vary depending on supplier and shipping, often in the $50–$150 range for industrial-grade metal plates. 2.

Plastic or Resin Base Plates

Products like the LeMotech ABS plastic internal panel for junction boxes are available on Amazon, typically priced around $10–$30 per plate, suitable for light-duty or residential installations.

MISUM

I offers free mounting plates made of resin that can be installed flexibly in instrument boxes or breaker panels, with prices varying based on size and specifications. 3.

Pedestal or Floor-

Mount Bases

For larger enclosures or operator interface devices, pedestal bases from suppliers like RSP Supply provide floor-mounted solutions. These are more expensive, often $100–$200+, depending on material (stainless steel, bolt-down, or die-cast legs) and height.

Purchasing Considerations

Material: Metal plates offer durability and grounding options; plastic/resin plates are lightweight and corrosion-resistant. Size and Compatibility: Ensure the base plate matches the enclosure size and mounting requirements. Supplier: Prices vary by distributor; some require a quotation (e.g., ABB metal plates), while others list fixed prices online (e.g., Amazon, MISUMI).

Location: Some suppliers, like Graybar, require ZIP code input to display pricing and availability. In summary, resin or ABS plates for small junction boxes cost around $10–$30, while industrial metal base plates can range from $50 to $150 or more, and floor-mounted pedestal bases may exceed $200 depending on specifications and materials. Always check with the supplier for exact pricing and shipping costs.
