JINHEN

G Electric (Shandong TAIAN JINHENG Electric Co., Ltd)JINHENG Electric is a professional cable tray manufacturer in China, offering wire mesh cable trays, perforated trays, cable ladders, and accessories. They operate a 10,000 m² state-of-the-art factory equipped with CNC machines, welding robots, and automated production lines, ensuring high-quality products and competitive delivery times.

JINHEN

G Electric holds ISO 9001, ISO 14001, ISO 45001, and CE certifications, and collaborates with universities for R&D, making them a leading brand in China.

SILTECSILTE

C provides stainless steel and galvanized wire mesh cable trays suitable for industrial, office, and hygienic environments such as the food industry. With over 30 years of experience, SILTEC focuses on flexible, environmentally-friendly cable routing systems and emphasizes quality, delivery reliability, and customer satisfaction. Their modern automated plant ensures consistent production standards and the ability to meet diverse industry requirements.

PohlConPohlCon offers mesh cable trays in various shapes (U, C, G, W) and heights, suitable for indoor and outdoor applications including data centers, industrial plants, and hygienic environments. Their trays provide excellent cable ventilation and flexible cable routing, with a standard range covering most common applications.

Pohl

Con also provides expert advice and support services to ensure smooth project implementation.

Summary

These manufacturers provide high-quality, customizable mesh cable trays with a focus on durability, safety, and efficient installation. They cater to a wide range of industries, including industrial, IT, food hygiene, and commercial projects, and offer global supply capabilities. Choosing a supplier depends on factors such as material preference, certifications, production capacity, and project-specific requirements.

For sourcing, you can explore VALDINOX for European projects, JINHENG Electric for Chinese manufacturing expertise, SILTEC for stainless steel and hygienic applications, and PohlCon for flexible, standard mesh tray solutions.
