Relay Protection Data Center PDUIP54 Wholesale Price

Overview

Comparing data center pdu prices. You can easily wholesale quality data center pdu at wholesale prices on Made-in-China .

Key Takeaways

Wholesale prices for IP54-rated data center PDUs vary widely, typically ranging from $200 to $1,500 per unit depending on features, capacity, and supplier. Overview of Data Center PDUsData Center Power Distribution Units (PDUs) are essential for reliable power management in racks and cabinets, offering features such as load balancing, monitoring, and surge protection.

PD

Us are available in several types: Basic PDUs: Simple rack power strips for non-critical loads; cost-effective for bulk deployment.

Metered PD

Us: Provide real-time monitoring of input current and power usage, helping prevent overloads.

Switched/

Smart PD

Us: Allow remote control of individual outlets, integration with DCIM/BMS systems, and environmental monitoring (temperature, humidity, leak detection),. IP54 Rating and Relay ProtectionAn IP54 rating ensures the PDU is protected against dust ingress and water splashes, making it suitable for environments where additional protection is required. Relay protection in PDUs adds over-current, short-circuit, and surge protection, safeguarding critical IT equipment.

Wholesale Pricing Considerations

Capacity and Phases: Single-phase PDUs (120V–240V) are generally less expensive than three-phase units (208V–415V) with higher amp ratings. Monitoring Features: Basic PDUs are at the lower end of the price range ($200–$400), while metered or smart PDUs with IP54 protection can range from $600–$1,500 per unit. Supplier and Volume Discounts: Purchasing directly from manufacturers or verified China suppliers can reduce costs, especially for bulk orders.

Customization: Some suppliers offer custom configurations, including outlet types, input feeds, and relay protection options, which may affect pricing. Recommended SourcingMade-in-China: Offers a wide selection of wholesale PDUs with IP54 options and OEM capabilities. Vertiv and Rittal: Provide high-quality PDUs with relay protection, monitoring, and IP-rated enclosures suitable for mission-critical data centers.

Larson Electronics: Supplies metered and switched PDUs with robust construction and remote monitoring features. For accurate wholesale pricing, it is recommended to contact suppliers directly with your required specifications, including IP rating, amperage, phase, and relay protection features, to obtain custom quotes.
