Relay Protection Tester homgo

Overview

Our relay protection tester offers comprehensive testing for both optical digital and traditional protective devices. It's ideal for power plants, substations, equipment manufacturers, and institutions needing relay protection evaluations. It is the most cost-effective protection relay tester all over the world, and has reliable performance and low maintenance costs typical advantage. The cumulative sales over 5,000 units from 1999 to. China Relay Protection Tester catalog of Six Phase Protection Relay Tester for Relay Test, High Accuracy Three Phase / Six Phase Secondary Current Injection Relay Protection Tester provided by China manufacturer - Wuhan Goldhome Hipot Electrical Co. HAOMAI ELECTRIC POWER AUTOMATION is established in 1999 and located in Wuhan of China, which is specialized in developing and manufacturing electrical power test and measurement instruments. HAOMAI products are widely used in power grid, petrochemical, metallurgy, railway, coal mine, research. Megger's smart relay testing solutions and expert support help you validate protection performance, improve system reliability, and ensure continuity of power across your network.
