Revit cable trays cannot be labeled

Overview

From the Type Selector, select the cable tray type, with or without fittings. Click Systems tab Electrical panel Cable Tray. On the ribbon, verify that Tag on Placement is. Can some one show a sample cable tray tagging for vertical trays (i. e to above, to below) 11-21-2023 01:13 PM For something like that, I would put the "To above, to below" information in an instance parameter. You can use comments, which is built into the family. Walk through placing cable tray in Revit MEP--loading fittings, setting routing preferences, drawing. Missing tags are one of the most common (and frustrating) issues for students, interns, and even seasoned professionals. In this guide, we'll walk through why Revit tags aren't showing up and how to fix them quickly—while also explaining why these fixes matter in your broader BIM workflow.
