Sellers of explosion-proof electrical distribution boxes in Qatar

Overview

Explosion proof Control Box | Junction Box | Cabinets | GroundingExplore explosion-protected electrical equipment for safe use in hazardous areas. Certifie.

Key Takeaways

Key suppliers of explosion-proof electrical distribution boxes in Qatar include Magnus, Petrotec, Bushtorm, Nassguard, and Electron Qatar, offering ATEX and IECEx-certified solutions for hazardous areas. Leading Suppliers and Distributors1. Magnus Magnus provides a wide range of explosion-protected electrical equipment, including control units and enclosures suitable for hazardous areas.

Their products are designed for safety, reliability, and regulatory compliance, with options in GRP and stainless steel (AISI 316L) materials. Magnus also offers services for Ex enclosure population and customization to meet specific industrial requirements. 2.

Petrotec Qatar Petrotec, in collaboration with R. Stahl, operates a facility in Qatar for the assembly of explosion-proof products. They supply enclosures and control panels for the oil and gas, energy, and industrial sectors, providing local support, faster delivery, and product customization.

Their solutions are certified for use in hazardous zones and comply with international safety standards. 3. Bushtorm Bushtorm supplies the Flameproof Ex d Envirobox®, a high-performance junction box made from reinforced engineering polymer.

It is certified for Zone 1, 2, 21, and 22, withstands up to 4000 kPa internal pressure, and has an IP66/68 rating. The boxes are fully compliant with ATEX, IECEx, EN, and SANS standards, making them suitable for oil, gas, mining, and offshore applications in Doha, Ras Laffan, Mesaieed, and Al Khor. 4.

Nassguard Nassguard offers ATEX-certified explosion-proof enclosures for electrical and instrument protection in hazardous areas. Their enclosures are designed to contain internal explosions and prevent ignition of surrounding atmospheres, suitable for oil and gas, petrochemical, marine, and mining industries. They provide customizable solutions with reinforced doors, lockable latches, and multiple cable entry options.

5. Electron Qatar Electron Qatar distributes Crouse-Hinds series C30 and C31 duct outlet boxes, approved for Zone 1, 2, 21, and 22 hazardous areas. These IECEx-certified boxes protect conductors in threaded rigid conduit, allow pull and splice operations, and feature IP67 protection.

They are made from light alloy with neoprene O-ring seals and grounding screws, offering durability and compliance with EN60079-0 standards.

Considerations for Selection

Certification: Ensure the boxes are ATEX and IECEx certified for the specific hazardous zone. Material: Options include GRP, stainless steel, or reinforced polymer, depending on environmental conditions. Ingress Protection: Look for IP66/68 ratings for dust and water resistance.

Customization: Some suppliers offer customized enclosures to accommodate specific cable entries or control panel configurations. Local Support: Suppliers with in-country facilities, like Petrotec, provide faster delivery and technical support. These suppliers collectively cover Qatar's industrial hubs, including Doha, Ras Laffan, Mesaieed, and Al Khor, ensuring access to certified, reliable, and durable explosion-proof electrical distribution boxes for hazardous environments.
