South African Electricity Meter Distribution Box Production

Overview

A multimillion-rand project to build two Advanced Metering Infrastructure (AMI) hardware mass production plants and thirteen distribution satellite warehouses will be rolled out across the country. Microtronix has kicked off 2025 with a significant milestone: the production of smart meters for Eskom. The project will be administered and managed by Madinda Utilities, a Pretoria-based AMI hardware. Whether you order electrical distribution boards, kiosks, boxes, circuit breakers or OEM spec'd LV switchgear from our stock or from our factory, our ISO 9000 certification and success record in most of SA's top 10 reticulation projects assure you of proven safety, quality, on-time delivery and. This document states the requirements for the manufacturing of pole mounted service distribution boxes for split prepayment metering. The options include the following: 2.
