# Supplier of complete sets of indoor high and low voltage switchgear

## Overview

Our custom-built switchgear and electrical switchboards guarantee the proper flow of power and protection for your equipment. Discover the best power distribution solutions to protect your equipment.

## Key Takeaways

Leading suppliers of indoor high and low voltage switchgear in the UK include R&B Switchgear Group, Slaters Electricals, Industrial Switchgear Services Ltd (ISS), AF Switchgear, and various manufacturers listed on Building Services Index. Key Suppliers and Their OfferingsR&B Switchgear Group specializes in low voltage (up to 690V) switchgear solutions, including main LV switchboards, section boards, panel boards, and transfer switches. They provide bespoke designs, modular or welded constructions, and additional safety features such as IR inspection windows, partial discharge monitoring, and arc containment solutions.

Their products are manufactured and tested in the UK to BS EN 61439 standards, with installation and commissioning services available. Slaters Electricals supplies both new and refurbished LV, HV, and MV switchgear, supporting legacy and current equipment from manufacturers like ABB, Schneider, Siemens, and Reyrolle. They offer supply-only or full installation and commissioning services, with options for ACB, MCCB, or fuse-linked protection.

Their expertise covers 3. 3kV to 33kV switchgear, making them suitable for industrial and utility applications. Industrial Switchgear Services Ltd (ISS) provides comprehensive HV/LV solutions nationwide, including manufacturing, maintenance, installation, commissioning, and retrofitting.

*© 2026 CJC FIBRE CONSULTANTS - All rights reserved*

They produce low and high voltage switchgear, protection cubicles, LV generator changeover panels, marshalling cabinets, and bespoke control equipment.

IS

S serves sectors such as rail, manufacturing, utilities, and petrochemical industries, offering turnkey electrical distribution projects.

A

F Switchgear focuses on bespoke LV distribution solutions, modular systems, control panels, and HV equipment including package substations. They provide design, manufacture, installation, and testing services, with 24/7 support and maintenance. Their expertise includes IP55 & IP68 busbar systems and flexible solutions for modern industrial and commercial applications.

Additional Manufacturers can be found via the Building Services Index, offering a range of indoor and outdoor AC/DC medium voltage switchgear, low voltage distribution panels, circuit protection equipment, and specialized solutions for power generation and industrial sectors.

### Considerations for Selection

When choosing a supplier, consider: Voltage range and type (LV up to 690V, HV up to 33kV or higher)Customization needs (bespoke panels, modular vs welded designs)Compliance and standards (BS EN 61439, IEC standards)Support services (installation, commissioning, maintenance, retrofitting)Sector experience (rail, petrochemical, utilities, manufacturing) These suppliers provide a combination of high-quality products, engineering expertise, and comprehensive support to meet diverse industrial and commercial power distribution requirements.

Switchgear | ABB Electrification U.S.

The ABB switchgear offering includes both low voltage and medium voltage switchgear along with electrical disconnect switches, fuses and circuit breakers used to control, protect, and isolate

Vertiv Switchgears and Switchboards

Our custom-built switchgear and electrical switchboards guarantee the proper flow of power and protection for your equipment. Discover the best power distribution solutions to protect your equipment.

Vertiv Switchgears and Switchboards

*© 2026 CJC FIBRE CONSULTANTS - All rights reserved*

Our switchgear products are custom built in production facilities in Ireland, USA and UAE. We offer a single source Medium Voltage and Low Voltage switchgear solution allowing you to take a fully

Switchgear Manufacturing | Medium & Low Voltage

We provide high-quality, new, and remanufactured equipment for low and medium-voltage power. Our custom manufactured switchgear solutions are designed to

Electrical switchgear | Low & high voltage | Aggreko US

From low-voltage panels to high-voltage turnkey systems, our electrical distribution rentals are designed for safety, scalability, and speed. Whether you''re managing a shutdown, powering up a remote site,

HV, MV & LV Electrical Switchgear Solutions

We offer a full range of quality high voltage, middle voltage & low voltage switchgear with customized solutions available. Specializing in the manufacture and sale of

Secondary Switchgear Products

Our range of ring main units (RMUs) are all suitable for both indoor and outdoor locations and are designed to operate in the most extreme environmental conditions.

Switchgear

Circuit Breaker Sales supplies new and remanufactured, indoor and outdoor, low voltage switchgear with main buss ratings up to 6,000 amperes and interrupting

Retail and Mall

Retail is today an omnichannel experience. Have you ever wondered how technology can support you in creating an integrated approach for customers instore and online? ABB solutions provide safety,

Custom 3 Phase Low Voltage Power Distribution Cabinet IP55 Metal

Supplier highlights: This supplier offers full customization, design customization, and sample customization, mainly exporting to Zambia, Germany, and Australia, with product certifications and a

The Basics of Electrical Data Center Design in 2025

The data center power supply chain 1. Medium-voltage switchgear and MV/LV transformers Standard MV voltage levels Key equipment in MV

server-rack-supplier Manufacturer/Producer
