Taiwan Outdoor Distribution Box Manufacturer

Overview

Distribution Boards (Switch Boxes) | Jun Long Co., Ltd. Specialized fire equipment manufacturers, hydrant box, integrated fire hydrant box, the emergenc.

Key Takeaways

Taiwan hosts several leading manufacturers of outdoor distribution boxes, offering plastic and aluminum enclosures with high waterproof and weather-resistant ratings. Key Manufacturers1. E-tan (Coca) E-tan specializes in industrial enclosures, electrical boxes, junction boxes, and control boxes.

They provide plastic enclosures with IP68 ratings, suitable for harsh environments such as coastal areas, marine applications, renewable energy, and water treatment. E-tan offers precise machining services and various accessories to meet custom requirements, making them ideal for applications like AIoT smart aquaculture systems where prolonged water exposure is expected. 2.

Gainta Industries Ltd. Gainta is one of the largest enclosure manufacturers in Asia, with over 30 years of experience. They produce thermoplastic and aluminum enclosures, including plastic and aluminum cases, junction boxes, and packaging housings.

Their products are designed to protect electrical and electronic components in hostile environments. Gainta also provides OEM mold manufacturing and custom solutions. 3.

Ritec Enclosures Inc. Located in San Chung District, New Taipei City, Ritec manufactures plastic molded enclosures with IP65 ratings, suitable for outdoor and industrial applications. They focus on durable, weather-resistant designs for electrical and electronic protection.

4.

Export

Hub Listings Export

Hub provides a platform to connect with multiple Taiwanese plastic distribution box manufacturers, allowing buyers to source products globally. This includes suppliers offering a variety of sizes, materials, and customization options for outdoor distribution boxes. 5.

Additional Suppliers Other companies like Shallin and HHC offer a wide range of electronic components and plastic enclosures, which can be integrated into distribution box solutions for telecommunications and industrial applications.

Considerations for Selection

Material: Plastic vs. aluminum depending on durability and environmental exposure. Ingress Protection (IP) Rating: IP65–IP68 for water and dust resistance. Customization: Availability of OEM services and accessory options.

Experience: Manufacturers with decades of experience often provide better quality and reliability. Application: Ensure the enclosure suits your specific outdoor environment, such as marine, renewable energy, or industrial settings. These manufacturers provide robust solutions for outdoor distribution boxes, combining weather resistance, durability, and customization to meet diverse industrial and commercial needs.
