Where can I find pre-stretched optical cables for Somalia

Overview

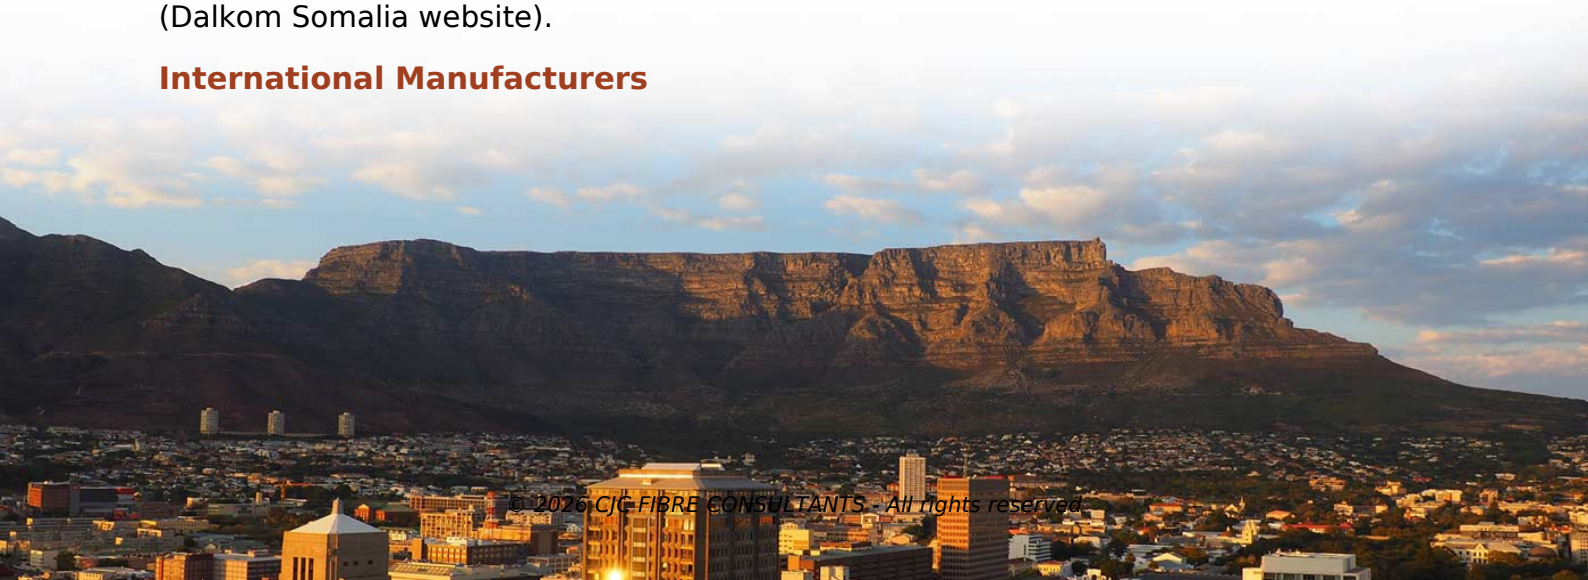

FTTA Solution Manufacturer & Product in Somalia Our products are engineered to withstand Somalia's unique environmental challenges—including high humidity.

Key Takeaways

You can source pre-stretched optical cables in Somalia through local providers like SOON and Dalkom Somalia, or via international manufacturers such as Mediterranean Cables. Local Suppliers in SomaliaSOON (Somali Optical Network) is a leading provider of optical network services in Somalia, offering fiber-optic network installation, maintenance, and related services. They have a strong presence across the country and can provide consultation on cable types, including pre-stretched optical cables, for both business and residential deployments (SOON website).

You can contact them directly through their website to inquire about availability and delivery options. Dalkom Somalia operates extensive terrestrial and submarine fiber networks, including EASSy, EIG, and SEACOM, and provides high-speed connectivity solutions. While primarily a network operator, Dalkom may facilitate procurement of optical cables for large-scale projects or connect you with authorized distributors (Dalkom Somalia website).

International Manufacturers

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

Mediterranean Cables specializes in custom cable manufacturing, including pre-stretched optical cables. They offer tailored designs, lengths, connectors, and technical support to meet specific client requirements. They also provide testing, quality control, and consultation services to ensure optimal installation and performance (Mediterranean Cables website).

International shipping to Somalia can be arranged, making them a viable option if local stock is limited.

Recommendations

Contact SOO

N or Dalkom Somalia to check for local availability and technical support for pre-stretched optical cables. Reach out to Mediterranean Cables for custom orders if local suppliers cannot meet your specifications. Verify delivery logistics and import regulations for Somalia to ensure timely and compliant shipment.

Request technical consultation to confirm cable type, length, and installation requirements for your network setup. By combining local providers for immediate support and international manufacturers for specialized requirements, you can secure pre-stretched optical cables suitable for deployment in Somalia.
