Which supplier offers the cheapest ladder-type cable trays in Iran

Overview

EXPORT-ready Cable tray and cable ladder made in Iran by .Tafakornia Industrial Group.. Specs, certifications, minimum order quantity, lead time, Incoterms & packaging. Request a quotation.

Key Takeaways

For cost-effective ladder-type cable trays in Iran, suppliers like Jooyeshgar, Abhar Cable, and Bahra Electric are among the most accessible options. Key Suppliers1. Jooyeshgar Jooyeshgar produces a wide range of cable trays, including ladder-type trays made from galvanized steel and ST37 steel.

They offer both cold and hot-dip galvanized options, with hot-dip providing higher corrosion resistance. Their trays are available in widths from 50 to 1100 mm and lengths of 2–3 meters, making them suitable for industrial applications. Jooyeshgar is known for competitive pricing due to local production and standardized manufacturing processes.

2. Abhar Cable Abhar Cable is one of Iran's largest manufacturers and suppliers of electrical cables and cable trays. They provide high-quality ladder-type trays suitable for heavy-duty and high-voltage installations.

While specific prices are not listed online, their scale and local production suggest they can offer cost-effective bulk pricing for industrial buyers. 3. Bahra Electric Bahra Electric supplies a variety of cable trays, including ladder-type models.

Their products emphasize modularity, ease of installation, and cost-effectiveness. They cater to commercial and industrial projects, and their open-frame ladder trays are designed to reduce installation and maintenance costs. Additional OptionsB2B Marketplaces Platforms like Tradewheel, Alibaba, and Europages list multiple Iranian and international suppliers of ladder-type cable trays.

These marketplaces allow buyers to compare prices, request quotes, and purchase in bulk, often resulting in lower costs per unit. For example, Alibaba lists mild steel and hot-dip galvanized ladder trays, which are durable yet cost-effective compared to stainless steel alternatives.

Recommendations

For lowest cost: Focus on mild steel or hot-dip galvanized trays from local manufacturers like Jooyeshgar or Abhar Cable. For bulk orders: Use B2B platforms to compare multiple suppliers and negotiate prices. Consider durability vs. price: Hot-dip galvanized trays offer better corrosion resistance for slightly higher cost, which may reduce long-term replacement expenses.

By contacting these suppliers directly or using B2B marketplaces, you can obtain the most competitive pricing for ladder-type cable trays in Iran.
