Wholesale price of galvanized cable trays in Europe

Overview

Cable trays Cable trays Discover a comprehensive range of high-quality cable trays and cable ladders at ekabel24.com – the reliable choice for safe, organi.

Key Takeaways

Wholesale galvanized cable trays in Europe typically range from €15 to €50 per meter, depending on type, size, and thickness.

Price Overview

The wholesale cost of galvanized cable trays varies based on material quality, tray type, dimensions, and finish. Standard galvanized iron (GI) trays for industrial and commercial use generally fall within €15–€50 per meter. For example, ladder-type trays with dimensions around 350x50x2mm are commonly priced in the mid-range due to their robust load-bearing capacity and corrosion resistance.

Hot-dip galvanized trays, which offer superior protection against corrosion, tend to be at the higher end of this range.

Factors Affecting Price

Tray Type: Ladder, perforated, solid-bottom, and mesh designs influence cost. Ladder trays for heavy-duty applications are more expensive than perforated or mesh trays designed for lighter loads. Material Thickness: Thicker trays (1.

5–3mm) provide higher load capacity and durability, increasing the price. Dimensions: Wider and taller trays (up to 1200mm width and 200mm height) cost more due to higher material usage. Finish: Hot-dip galvanization is more expensive than pre-galvanized or powder-coated finishes, but it offers longer lifespan in harsh environments.

Volume and Supplier: Bulk orders from manufacturers or verified B2B suppliers can reduce per-meter costs. European suppliers often provide custom quotes based on order size and specifications. Suppliers and ProcurementGlobalLinker and Shree Mahalaxmi Electrical offer factory-direct GI cable trays with customizable sizes and finishes, suitable for industrial and commercial projects.

Direct

Industry lists multiple European manufacturers of galvanized steel trays, including ladder, mesh, and perforated types, allowing buyers to request quotes for bulk orders. Eurostrut provides distribution trays and NATO-type cable management systems, with pricing available upon request.

Recommendation

For accurate wholesale pricing, it is best to contact suppliers directly with your required specifications (type, dimensions, thickness, and finish). This ensures you receive competitive quotes tailored to your project volume and delivery requirements. Bulk orders often benefit from discounts and faster delivery options.

By considering these factors, you can select galvanized cable trays that balance cost, durability, and installation efficiency for European industrial or commercial projects.
