Zunhua hot-dip galvanized cable tray price inquiry

Overview

Cable Tray Price List | Electrical Works The cable tray price list are for hot dip galvanized ladder type cable tray. The price is based on standard length.

Key Takeaways

Hot-dip galvanized cable trays in Zunhua typically cost between $10 and $30 per meter, depending on type, size, and order quantity.

Price Overview

The cost of hot-dip galvanized (HDG) cable trays varies based on material, design, and dimensions. Steel ladder-type trays, which are common for industrial and outdoor installations, generally range from $10 to $30 per meter. Aluminum trays are more expensive ($20–$50 per meter), while plastic trays are cheaper but less suitable for heavy loads or harsh environments.

Standard lengths are usually 2. 4 meters per section, and fittings are priced per piece.

Factors Affecting Cost

Tray Type and Size: Ladder trays are more expensive than perforated or wire mesh trays due to their load-bearing capacity. Widths of 150mm, 300mm, 450mm, and 600mm are common, with larger trays costing more. Material and Coating: Hot-dip galvanization provides superior corrosion resistance, especially for outdoor or humid environments, which increases the upfront cost but reduces long-term maintenance.

Bulk Orders: Purchasing in bulk can reduce unit costs by 15–30%, making large projects more economical. Customization: Custom sizes, OEM designs, or special coatings may increase the price. Local Factors: Shipping, labor, and regional demand in Zunhua may slightly affect the final cost, but Chinese suppliers often offer competitive pricing due to local production.

Practical Tips

Verify IS

O 1461 or ASTM A123 standards for galvanizing thickness (minimum 80 µm for outdoor use) to ensure durability. Request sample testing reports before bulk purchase to confirm coating quality and load capacity. Consider total cost of ownership, including installation, maintenance, and potential replacement, rather than just the initial price.

In summary, for Zunhua, you can expect hot-dip galvanized steel cable trays to cost roughly $10–$30 per meter, with potential savings for bulk orders and variations depending on tray type, size, and customization requirements.
